

WaxJet - 400

Large Size | High Precision | Wax 3D printer

WaxJet - 400 adopts Multi-Jet printing technology for printing smooth surfaces, and high-precision casting wax patterns. Large print size, and can be tiled and overlapped to place multiple models, the thicknesses of each layer is 0.016 mm. with an in house WaxJet, can achieve.

- Customized and quick production of small-batch orders
- Design secrecy
- Produce highly intricate designs

PRODUCT SPECIFICATIONS

TECHNOLOGY
MJP

RESOLUTION (DPI)
1200 x 1200 x 1600

NO. OF PRINTHEADS
3

BUILD VOLUME
289 x 218 x 150 mm

LAYER THICKNESS
16 um

PRODUCTION CAPACITY
300 g per day

DIMENSIONAL ACCURACY
± 0.04 mm / 20 mm
