

# Triagle Zig For Plating

Manufactured by: 

Zig is an indispensable system for jewellery. Cleaning as manufacturing progresses, becomes more critical. As cleaning is to be done in intricate areas, under stones, Doit Industries research and development has created ultrasonic machine with effective cavitations which causes formation of minute bubbles in cleaning liquid and thus cleaning dirt from minutest places. You can also achieve very effective cleaning with more than 90% power saving and faster cleaning. We at Doit Industries have made these zigs for our customers, which increase the speed of productivity and faster cleaning of multiple jewellery items at a single time. Each Zig can be customised as per customers requirement.

## Features

- ▶ Precision Cleaning: Targets intricate jewelry areas for thorough dirt removal.
- ▶ Efficient Cavitations: Uses bubbles for effective cleaning with 90% power savings.
- ▶ Swift & Multiple Cleaning: Enhances productivity with quick, simultaneous item cleaning.
- ▶ Customizable: Tailor each Zig to meet specific customer requirements.
- ▶ Innovative Design: Developed by Doit Industries for efficient jewelry cleaning.
