

Colorit Micron brush Regular

10 Pcs

Marketed by :

The modern material COLORIT gives the designer countless opportunities to produce distinctive, colorful creations. Color is moving, inspiring, and fascinating. COLORIT allows this feeling to be translated in to elegant pieces of jewellery – with impressive effects. The design possibilities are virtually limitless with COLORIT. The color-fast tones are available in a number of nuances and can also be freely mixed. Since it is easy to work with, your imagination and love of experimentation will know no limits. The composite material with ceramic reinforcement can be applied quickly and easily, hardened permanently under blue light and ground and polished mechanically. The material is adhesion-, shock- and wear-resistant, making it ideal for high-quality and individual designs.

Medical and dental instruments, drills and tools can be safely and reliably labeled with the biocompatible, patented COLORIT and COLORIT Dual marking systems. Both systems – based on a composite material with ceramic reinforcement – are available in standard colors or customized nuances. Samples using customers' instruments can be produced in our technical laboratory on request. Simple application, mechanical workability and color consistency and resistance guarantee flexible, reliable and long-lasting color marking – for the distinctive labeling of medico-technical instruments.

Colorit Micronbrushes Regular

These COLORIT® Regular Microbrushes are ideal for the application, distribution and removal of COLORIT® activators. Their standard tips enable precision and control over how much you wish to apply, especially helpful in applying thin layers.

Features

- ▶ Applicator for COLORIT®
- ▶ Enables good precision for applying thin layers
- ▶ A must have accessory for COLORIT®
- ▶ Supplied in a pack of 10
