

# Mix Bed Resin

Purolite ready to use mixed bed resins are specially prepared high-quality resin mixtures designed for direct purification of water. They are engineered with different cation and anion component ratios to perform well in any system for any application. Several of the mixed bed resins are available with indicators that facilitate ease of operation when a simple visual indication of exhaustion is desired.

## Features

- ▶ Mixed bed polisher after demineralization system
- ▶ Electrical discharge machining (EDM)
- ▶ Partial demineralization with acrylic weak base anion
- ▶ Condensate polishing
- ▶ Mixed bed polisher after reverse osmosis (RO)
- ▶ Cartridges

## Principal Applications:

Demineralization- Mixed Bed  
Cartridges

## Advantages:

General Purpose

## Systems:

Coflow regenerated systems  
Counter flow regenerated systems  
Mixed Bed
