

SZS Beads

SZS Zirconium Silicate Beads are manufactured from world-class premium zircon ($ZrSiO_4$) mineral in a special high temperature sintering process. Because of its outstanding breakage resistance and the advantageous price, this medium density bead is particularly suitable for use in large-volume agitated bead mills.

Features

- ▶ Produced from world-class premium zircon ($ZrSiO_4$) mineral in a special high temperature sintering process.
- ▶ Medium density media particularly suitable for use in large-volume agitated bead mills.
- ▶ Fully dense, perfect sphericity and extremely smooth beads surface.
- ▶ No porous and irregular shape problems.
- ▶ Outstanding breakage resistance.
- ▶ Optimum performance-price ratio.
- ▶ This is the bead recommended to efficiently fine-grind zircon.
