

Carbon Granual Cartridge

10 Inch

Marketed by : 

A carbon granule cartridge is a key part of water filtration, using activated carbon to efficiently remove impurities. Commonly used in systems like under-sink filters, it enhances taste and odor. Regular replacement, based on water volume and quality, is crucial for sustained effectiveness. Overall, it significantly improves water quality.

Features:

- ▶ **Activated Carbon Filtration:** Effectively removes impurities, including chlorine and volatile organic compounds.
- ▶ **Micron Rating:** Comes with a specific micron rating for capturing particles of a defined size.
- ▶ **Versatile Applications:** Commonly used in various water filtration systems, such as under-sink filters and countertop systems.
- ▶ **Taste and Odor Enhancement:** Improves the taste and odor of water by eliminating undesirable elements.
- ▶ **Regular Replacement:** Requires periodic replacement for sustained effectiveness, with frequency based on water volume and quality.
- ▶ **Compatibility:** Crucial to ensure compatibility with specific water filtration systems or housings.
- ▶ **Key to Water Quality:** Plays a vital role in enhancing overall water quality and safety.
