

Dryer Oven

[43M]

The Dryer Oven 43M stands out as an intuitive solution for precise temperature control during the curing process. With its user-friendly time controller and LED lamp temperature controller, achieving optimal results becomes effortless. Crafted with convenience in mind, this oven features a specially designed tray that comfortably accommodates larger articles, ensuring even heat distribution throughout the chamber. Whether setting enamel, casting, treating gemstones, or executing anti-tarnish processes, this oven delivers consistent and reliable performance. The Dryer Oven 43 M stands out as an intuitive solution for precise temperature control during the curing process. With its user-friendly time controller and LED lamp temperature controller, achieving optimal results becomes effortless.

Features :

- ▶ Adjustable temperature settings for precise control over the curing process.
- ▶ Durable construction with high-quality materials, ensuring longevity and reliability.
- ▶ Compact design for space efficiency in various working environments.
- ▶ Easy-to-read LED display for monitoring temperature and timer settings.
- ▶ Safety features such as overheat protection and automatic shut-off for peace of mind during operation.
